

Go maker

Start

let's go!

I have an assignment.

what have you got?

I have an idea.

I have a question.

**What do you need?
Choose:**

I need to know more so I can really understand it!

I need to know more.

how will I make it?

I need to learn a skill.

I need something to get my ideas flowing.

I need to be inspired.

I can find it on my own.

I'll ask for help.

I can learn it by myself.

I'll ask for help.

I can find it on my own.

I'll ask for help.

Did it! I can continue!

whoehoe!

**Ahh!
Got stuck again.**

that's all right!

Go maker is an experimental tool that helps makers through their making process by self guidance.
